<sup>4</sup>Includes share of CCI profits from 16<sup>th</sup> December 2019

- Aggregate Affiliates' FUM of \$58.7 billion at 30 June 2020 (at 100%)<sup>1</sup>

- Sharp drop in equities markets in February/March significantly impacted FUM during the period

  - MSCI World Index up 0.3% in the financial year to 30 June 2020; down 7.1% in 2H2020
  - FUM decreases due to market movements/investment performance during the financial year to 30 June 2020 were \$1.6 billion (\$1.0 billion of which was retail); decreases due to market movements/investment performance during 2H2020 were \$3.9 billion (\$1.2 billion of which was retail)
- Increasingly diversified client base<sup>3</sup>

<sup>1</sup>includes \$3.0 billion 'acquired' in December 2019. FUM shown is 100% of the FUM managed by Pinnacle Affiliates. Pinnacle holds significant minority stakes in each of its Affiliates and does not 'own' 100% of the FUM

<sup>2</sup>includes \$1.6 billion 'acquired' in December 2019 (previously reported as \$2.2 billion. Certain CCI accounts have been reclassified from retail to insto since the initial (December 2019) classification was undertaken). Total retail FUM at 31 December 2019 was previously reported as \$14.9 billion; following this reclassification, retail FUM at 31 December 2019 was \$14.3 billion

<sup>3</sup>see Slide 22 for further detail

- Net inflows for the financial year to 30 June 2020 (FY20) of \$3.0 billion
  - \$1.0 billion in the six months ended 30 June 2020 (2H2020)
- Retail net inflows for 2H2020 of \$19m (\$68m less LIC outflows<sup>1</sup> of \$49m)
  - much lower than for the PCP (\$1.5 billion, of which \$0.8 billion was LIC/LITs) and for 1H2020 (\$0.9 billion, of which \$0.2 billion was LIC/LITs)
  - following the turmoil caused by the market's response to COVID-19, it was pleasing to end the half in marginally positive territory
  - the pattern of 2H2020 retail net flows was: net inflows in January, May and June (average \$117m per month); net outflows in February, March and April – modest amounts except for large net out flows – \$238m – in March
- Institutional net inflows of \$2.1 billion (\$0.9 billion during 2H2020)
  - lower than expected, as a number of institutional allocators 'deferred' decision-making, however, the institutional prospects currently remain strong (pleasingly, from an increasingly diverse client set, by geography and client-type)
  - recognising that institutional flows are 'lumpy', it is nevertheless pleasing that institutional net inflows have been stronger again in May and June

<sup>1</sup>due to buybacks. No new LIC or LIT issues were completed during 2H2020 due to market impact of COVID-19

- Three new Affiliates (one Horizon 3 and two Horizon 2)
  - Acquisition of a 25% interest in CCI (Public Markets Credit) for an initial \$29.1 million in December 2019, with a further \$5m payable upon the business achieving certain milestones over the next one- to four-year period
  - Launch of Reminiscent Capital (Discretionary Asia Macro)
    - Cayman fund for international investors commenced in April 2020 and has received its first external client money
    - team of three initially, led by David Adams (ex-Brevan Howard Asia and Morgan Stanley Australia)
    - it is still early days, but Reminiscent has performed well since inception, including during the crisis
  - Launch of Aikya (Global Emerging Market Equity)
    - based in London
    - 32.5% owned by Pinnacle, 67.5% by team members
    - Aikya Global Emerging Markets fund launched in March 2020. UCITS fund forthcoming

- Total Affiliate revenues<sup>1</sup> were \$291.1m during FY2020, including \$26.7m (9.1%) in performance fees; in FY2019, total Affiliate revenues were \$236.8m, which included \$15.3m (6.5%) in performance fees
- This represents 22.9% growth in total Affiliate revenue (19.4% excluding performance fees)

<sup>2</sup>Includes \$3.0 billion 'acquired' in December 2019. FUM shown is 100% of the FUM managed by Pinnacle Affiliates. Pinnacle holds significant minority stakes in each of its Affiliates and does not 'own' 100% of the FUM.

- Consolidation in Pinnacle Parent in a challenging year:
  - Success- and FUM-based distribution fee revenue restrained due to market dislocation in 2H2020 – deferrals in certain institutional allocations; lower retail net inflows
  - Staff costs (excluding STI):
    - \$13,567k in FY20 compared to \$12,420k in FY19, predominantly due to the ‘full-year effect’ of the significant recruitment in FY19
    - Targeted additional hires in FY20 – mainly in offshore distribution
    - No cuts to our core capabilities
  - Significant reduction in STI (\$1,554k lower than in FY19) recognizing that results for the year fell below our original expectations
  - P&L impact of the LTI scheme (non-cash expense) – commenced part-way through FY19 – expense of \$1,961k in FY20, compared with \$1,435k in FY19 due to the ‘full-year effect’
  - Continuing ‘P&L investment’ in support of Horizon 2 initiatives (particularly Offshore distribution, and the cost of Pinnacle servicing new Affiliates)
  - Negative net return on Principal Investments of \$474k<sup>3</sup>, compared with positive net return of \$2,715k<sup>3</sup> in FY19
  - Interest cost on the CBA facility (\$408k) and amortization of the PL8 offer costs (\$691k) included within ‘other expenses’ for FY20 (both \$nil in FY19); revenues associated with the PL8 raise (which ‘offset’ against the amortization) were \$732k<sup>1</sup> in FY20
- Significant growth (\$4.9 million, or 15%) in Pinnacle’s share of Affiliate profits compared with FY19<sup>2</sup>:
  - Performance fees (at 100%) of \$26.7 million in FY20, across five Affiliates; \$15.3 million in FY19, mainly in Palisade
  - Continuing investment in additional resourcing by certain Affiliates ahead of future growth (including Metrics, Plato, Firetrail, Antipodes, Palisade, and Spheria)
  - Direct cost of Two Trees, Longwave, Riparian, Reminiscent Capital and Aikya included as negative NPAT
  - Impact of market decline and lower flows in 2H2020

<sup>1</sup>This is in addition to ‘up-front’ distribution fees Pinnacle earned on the capital raise

<sup>2</sup>Includes share of CCI profits from 16<sup>th</sup> December 2019

<sup>3</sup>Includes realized and unrealized mark-to-market gains/losses, dividends and distributions on PI

- Cash and Principal Investments of \$50.1m
  - Includes \$32.4m invested in strategies managed by Pinnacle Affiliates
  - Excludes over \$10m of cash applied for Affiliate equity recycling loans, working capital loans and additional Affiliate equity purchased
- \$30m debt facility from CBA – fully drawn down in December 2019, to purchase 25% of CCI
- Excludes impact of final dividend of 8.5 cents per share payable on 11<sup>th</sup> September 2020 and dividends to be received from Affiliates since 30<sup>th</sup> June 2020
- Franking credit balance (\$32.8m) at 30% company tax rate would enable potential fully franked dividends of \$76.5m
- Investments in affiliates represents the 'equity accounted' value, i.e., investment cost, plus Pinnacle's share of profits, less Pinnacle's share of dividends received. The balance is tested for impairment at each reporting period (currently none). This includes the \$29.1m investment into CCI, plus the \$5m additional consideration (not yet paid, but now assessed as likely and, therefore, recognized) in FY20
- Change in accounting standards during the year results in 'right to use' asset being recognized for leases in FY20 (\$3.8m) and a corresponding liability for amounts payable under these leases (\$3.8m). None recognized in FY19.

## Gross FUM growth (\$bn)<sup>1</sup>

- FUM of \$58.7bn as at 30 June 2020
- FUM has grown at a CAGR of 22.2% p.a. over the last ten years (20.0% excluding \$6.8bn ‘acquired’ in July 2018 and 3.0 billion ‘acquired’ in December 2019)
- Increase in FUM of \$4.4bn in the year to 30 June 2020
  - \$3.0bn acquired
  - Net inflows of \$3.0bn
  - Reductions due to market movements/investment performance of \$1.6bn
- Of the \$3.0bn of net inflows to 30 June 2020, \$0.9bn was retail (\$0.2bn in LICs/LITs)
- Impact of market dislocation in the second half led to net inflows being much lower relative to what might otherwise have been achieved
- Sharp increase in net inflows towards the end of the financial year

<sup>1</sup>Pinnacle FUM is 100% of FUM managed by Pinnacle Affiliates. Includes \$6.8 billion ‘acquired’ in July 2018 and \$3.0 billion ‘acquired’ in December 2019.

*We believe that the reputations and future success or otherwise of investment management companies are often determined by their behaviour and performance during periods of crisis and their capacity to resume growth depends on the strength of the capabilities with which they emerge from such crises*

- Largely 'business as usual' except working from home (moved early) and no travel
- We have paid close attention to the health and well-being of our people. Minimal direct health impacts; ensured extensive contact particularly within teams, very regular 'catch-ups'/communications using appropriate technology
- Extensive interactions with clients and their advisors (need us more than ever)
- Our approach: work very hard (especially with clients and prospects) during the crisis period; and continue the 'growth' work to ensure we come out stronger than ever, poised to resume growth, to react to possible further external adversity and to take advantage of opportunities that may materialise
- Attention to costs 'at the margins' but in the circumstances prevailing to date we have made no job cuts to people already employed
- Most (though, of course, not all) Affiliates have delivered investment performance to expectations or better

- Restrained outcomes for FY2020 as we recognise profit and FUM inflow outcomes were below original expectations
  - No salary increases for most executives, no net LTI issuance during the year, STI at a maximum of 50% of 'normal' expectation
  - Our people have been excellent in crisis conditions, and we seek longevity and stability of outstanding people for the years of growth ahead
  - As we grow the next generation of key executives, including sales executives, we are contemplating a modest issue of new LTI during FY2021 (1.0 – 1.5m shares), with features including 5 years to vest and all LTI subject to graduated performance tests
- 

# CORPORATE SUSTAINABILITY

*We are focused on continuous improvement, striving to do better by building a long-term, sustainable firm that focuses on our staff, customers and shareholders as well as the communities in which we engage.*

- Carbon Emissions
  - Pinnacle achieved carbon neutrality for the 2019 financial year and will continue to calculate and offset its carbon contributions henceforth
  - Tracking and measuring carbon footprint for air travel, travel via cars to client meetings as well as staff travel to and from work
  - Seeking to avoid travel in favour of video conferencing where possible
  - Donation made to Greenfleet to offset these emissions, plus a 50% premium. Greenfleet is a leading Australian not-for-profit environmental organisation that takes practical climate action by offsetting carbon emissions through restoring forests
  - Move to Green Energy by end calendar year 2020
- Pinnacle will further address its climate change risks by seeking Climate Active carbon neutral certification from the Australian Government.
- Sustainable use of resources
  - Target to reduce printing across the firm by 25% in 2020
  - Switching to more eco-friendly products (e.g., cleaning products)
  - Identifying where we can increase our recycling efforts
  - Implemented a project to remove all single use plastic from the firm by end of calendar year 2020

## People

- Fully supportive of initiatives to optimise the mental health of employees through access to the Employee Assistance Program for employees and family members
- Employees are encouraged to always act in Pinnacle's best interests and maintain a line of sight to long term goals. To help enable this, as at 30 June 2020, approximately 36% of employees had an individual shareholding in the Company
- Committed to providing a flexible working environment that suits an employee's personal circumstances. Several employees are currently on part time working arrangements to enable them to balance family and personal responsibilities

## Diversity

- Pinnacle believes that workplace diversity in this context includes but is not limited to gender, gender identity, age, race, disability, nationality, marital status, cultural background, sexual orientation, religious belief and ethnicity
- To support the achievement of these diversity objectives, Pinnacle has undertaken the following initiatives:
  - Equal opportunity recruitment process that draws a diverse pool of both applicants and shortlisted candidates for all positions
  - Flexible work arrangements to assist employees to balance their work, personal and family responsibilities;
  - Sponsoring Women in Finance scholarships to assist female university students in gaining a greater understanding of and experience in investment management
  - Founding Sponsor of the University of Queensland's first officially sanctioned networking group with a focus on women – UQWN
  - Applying the principle of equality when setting salaries and considering the short-term and long-term incentives of all employees
  - Applying the principle of equality when considering internal promotions and succession planning
  - Comprehensive employee behaviour and grievance resolution policy
- As at 30 June 2020, the company had a total of 30% females across all positions within PNI

## Community

- Through the Pinnacle Charitable Foundation and engaged Affiliates, we are supporting a number of key social priorities, including the following, by donating in excess of \$400k per annum:
    - Human Rights: legal assistance for victims of domestic and family violence and sexual abuse
    - Indigenous: development of corporate procurement initiatives for Indigenous communities and support for education scholarships for secondary school students from rural, regional and remote communities across Australia
    - Children: children facing acute or systemic disadvantage as well as medical research seeking treatments / cures for children's genetic diseases
    - Mental Health: partnering with the suicide prevention charity R U OK? to develop and deliver the nationwide 'Are They Triple OK?' Campaign supporting police and emergency services workers and volunteers
    - Environment: regeneration of habitat, and the rescue, rehabilitation and recovery of sick, injured and orphaned native animals following Australia's bushfire crisis of 2019 / 2020

## CCI acquisition

---

- Pinnacle acquired a 25% equity interest in CCI in December 2019, for \$29.1m, together with a further \$5m payable upon the business achieving certain milestones over the following 18 month to 4.5 year period
- Funded by a facility from the CBA
- Established in 2011, CCI is a leading long-only and long-short active public markets credit manager that is responsible for managing numerous institutional mandates, the Smarter Money Investments' product suite, and the BetaShares Active Australian Hybrid ETF (ASX:HBRD)
- As at 30 June 2020, CCI was responsible for managing over \$3.7 billion of institutional and retail investments (up from \$3.0 billion at the time of Pinnacle's acquisition of an equity interest)
  - We have provisioned the \$5m additional consideration in our accounts in full as at June 2020 because the indications are that CCI's profit growth will bring this about in the first possible year (FY21)
- CCI and Pinnacle have entered into a global distribution partnership, in which Pinnacle will share revenues from capital raised in the institutional, retail and offshore distribution channels
- CCI has delivered consistently outstanding results for their clients by generating alpha from liquid, high-grade credit. More than 90% of the FUM is subject to performance fees, providing strong alignment with clients
- CCI's offerings do not overlap with those of existing Pinnacle Affiliates and the acquisition further diversifies Pinnacle's portfolio of Affiliates, particularly in Fixed Income and Alternatives
- Market conditions following the crisis are favourable for Credit managers such as CCI as investors seek 'defensive yield' from scarce sources

1. Large team focussed exclusively on Australian investment-grade fixed-income
  - 6 portfolio managers, 11 analysts, and 23 staff in total
  - CCI's staff own 75% of business – remaining 25% held by Pinnacle
  - Chaired by Melda Donnelly (ex-CEO QIC, VFMC Deputy Chair) with Independent Director Bob Henricks (ex-Chair Energy Super)
  - CIO has advised multiple Prime Ministers on RMBS/ABS securitisation policies worth over \$17bn
2. Sophisticated credit valuation systems
  - 20-30x internally developed bond valuation models reprice, and factor-adjust, all bonds globally live
  - Uses internally-developed artificial intelligence to shadow credit-rate all bonds globally
  - Unprecedented trade-by-trade transparency for clients
3. A leading credit alpha generator
  - CCI minimises fixed-income betas: interest rate duration risk; credit default risk; and illiquidity risk
  - CCI exploits bond mis-pricings that generate large capital gains that augment yields
  - >98% win ratio on >8,500 bond sales since 2012
  - Credit alpha is crucial in a world where interest rates are declining (alpha has strong convexity)
4. Ability to customise mandates to client's precise preferences
  - Currently running >15 portfolios including long-only cash plus, long duration, and levered long-short
  - CCI is the investment manager for Smarter Money Investments' products and BetaShares Active Hybrid ETF
