FY21 Themes 4

Strong financial outcome, resumption of strong growth in profitability, FUM and net inflows

- Continuing benefits of growing diversity of:
 - Asset class and investment strategies of Affiliates
 - Client type and domicile
 - Performance Fee exposure

- Entering FY22:
 - Anticipate growth starting FUM >20% ahead of FY21 average FUM
 - Recognise possibility of further external adversity but resilient
 - Prepared for, and seeking, further expansion opportunities

- Net profit after tax (NPAT) attributable to shareholders of \$67.0 million for the financial year ended 30 June 2021 (FY21), up 108%^{1,2} from \$32.2 million in the financial year ended 30 June 2020 (FY20)
- Basic earnings per share (EPS) attributable to shareholders of 38.2 cents, up 103% from 18.8 cents in FY20⁴
- Diluted EPS attributable to shareholders of 36.5 cents, up 104% from 17.9 cents in FY204
- Share of NPAT from Pinnacle Affiliates of \$66.4 million, up 75% from \$38.0 million in FY20
 - including share of performance fees earned by Pinnacle Affiliates post-tax of \$19.5 million in FY21 (\$6.6 million in FY20)³; and
 - share of Coolabah Capital Investments Pty Limited (CCI) NPAT for the full year (from December '19 in FY20)
- Cash and Principal Investments (PI) of \$155.0 million at 30 June 2021
 - CBA facility increased from \$30.0 million to \$100.0 million at 30 June 2021, providing 'dry powder' for potential business investments. Additional funds meanwhile deployed in liquid strategies managed by Affiliates, commencing in early July 2021
- Fully franked final dividend per share of 17.0 cents (up 100% from the fully franked FY20 final dividend of 8.5 cents), payable on 17 September 2021, taking total fully franked dividends for the financial year to 28.7 cents (up 86% from the fully franked FY20 total dividends of 15.4 cents)

¹Adjusting for the net return on PI, NPAT (excluding the positive net return on PI of \$2.2 million in FY21) of \$64.8 million is up 98% on the \$32.7 million NPAT in FY20 (excluding the negative net return on PI of \$0.5 million in FY20)

²Adjusting for the net return on PI and Pinnacle's share of Affiliate performance fees, NPAT (excluding the positive net return on PI of \$2.2 million and share of Affiliate performance fees post-tax of \$19.5 million in FY21) of \$45.2 million is up 73% on the \$26.1 million NPAT in FY20 (excluding the negative net return on PI of \$0.5 million and share of Affiliate performance fees of \$6.6 million in FY20)

³Adjusting for Pinnacle's share of performance fees earned by Affiliates, share of NPAT from Pinnacle Affiliates of \$46.9 million (excluding Pinnacle's share of performance fees post-tax of \$19.5 million) is up 49% on the \$31.4 million share of NPAT from Pinnacle Affiliates in FY20 (excluding Pinnacle's share of performance fees post-tax of \$6.6 million)

⁴Adjusting for the net return on PI, Basic EPS attributable to shareholders of 37.0 cents is up 93% on 19.1 cents in FY20 and Diluted EPS of 35.3 cents is up 95% on 18.1 cents in FY20. Adjusting for the net return on PI and Pinnacle's share of Affiliate performance fees, Basic EPS attributable to shareholders of 25.8 cents is up 69% on 15.3 cents in FY20 and Diluted EPS of 24.7 cents is up 70% on 14.5 cents in FY20

²Includes interest cost on the CBA facility of \$0.5 million in FY21 (\$0.4 million in FY20) and amortization of the PL8 offer costs of \$0.9 million in FY21 (\$0.7 million in FY20)

³Includes mark-to-market and realized gains/losses on PI, net of hedging. These were total net losses of \$0.1 million in FY21 (increases 'expenses'), compared with total net losses of \$1.3 million in FY20 (increases 'expenses'). Adjusting for these, expenses increased by \$5.1 million, or 19%

⁴Includes share of CCI profits from 16th December 2019. Includes Pinnacle's share of Affiliate performance fees post-tax of \$19.5 million in FY21 (\$6.6 million in FY20)

• Fully franked dividends have grown at a CAGR of 54.1% over the same period (excluding the special dividend paid ahead of Pinnacle listing as a 'pure play' investment management business in 2016)

- Whilst growth in FUM and profitability were suppressed in FY20 due to the impacts of the COVID-19 crisis on markets and our business, Pinnacle has grown strongly, on average, over the two-year period to 30 June 2021, which encompasses the entire 'crisis period' to date:
 - NPAT growth of 59.8% per annum over the two-year period
 - Growth in diluted EPS of 56.7 % per annum over the two-year period
 - FUM growth of 32.3% per annum over the two-year period
- During that same time period, the S&P/ASX300 was up 5.6% per annum and the MSCI World was up 18.8% per annum

- Aggregate Affiliates' FUM of \$89.4 billion at 30 June 2021 (at 100%)^{1,2}
 - Up \$18.9 billion or 27% from \$70.5 billion at 31 December 2020
 - Up \$30.7 billion or 52% from \$58.7 billion at 30 June 2020
 - Aggregate Retail FUM (at 100%) now \$20.3 billion; up 22% from \$16.7 billion at 31 December 2020; up 55% from \$13.1 billion at 30 June 2020
- Equities markets rallied strongly during FY21, following the dislocation in the latter part of FY20:
 - S&P/ASX 300 index up 11.1% in the six months to 30 June 2021 (2H FY21); up 24.7% for FY21
 - MSCI World Index up 11.4% in 2H FY21; up 37.2% for FY21
- Of the \$30.7 billion increase in FUM in FY21:
 - FUM increases due to net inflows were \$16.7 billion of which was retail)
 - FUM increases due to market movements/investment performance were \$14.0 billion (\$2.7 billion of which was retail)
- Increasingly diversified client base 230+ institutional clients (some with whom we have multiple relationships) at 30 June 2021, compared with ~60 at 30 June 2016³
- Closing FUM of \$89.4 million is 28% higher than average FUM through FY21 (23% excluding \$3.9 billion one-off low-fee Plato mandate funded in April 2021)

¹FUM shown is 100% of the FUM managed by Pinnacle Affiliates. Pinnacle holds significant minority stakes in each of its Affiliates and does not 'own' 100% of the FUM ²\$85.5bn excluding \$3.9 billion one-off low fee Plato mandate funded in April 2021 ³see Slide 37 for further detail

^{4\$12.8}bn excluding \$3.9 billion one-off low fee Plato mandate funded in April 2021

- Net inflows for FY21 of \$16.7 billion¹
 - \$5.5 billion in the six months ended 31 December 2020 (1H FY21)
 - \$11.2 billion in 2H FY21²
- Retail net inflows for FY21 of \$4.5 billion (\$0.2 billion from LICs/LITs)
 - \$1.9 billion 1H FY21
 - \$2.6 billion 2H FY21, including \$192 million wholesale investor placement in April in the MCP Master Income Trust (ASX: MXT))
 - Hyperion has been a particularly strong performer, with significant contributions from Coolabah, Res Cap, Metrics, Firetrail and Solaris
- Institutional net inflows for FY21 of \$12.2 billion³
 - \$3.6 billion 1H FY21
 - \$8.6 billion in 2H FY21, including Plato mandate secured in April of \$3.9 billion, at low fee levels4
 - Recognising that institutional flows can be large and uncertain, we are delighted by the result for the year and the momentum with which we enter FY22, both within Australia and offshore

²\$7.3bn excluding \$3.9 billion one-off low fee Plato mandate funded in April 2021

^{3\$8.3}bn excluding \$3.9 billion one-off low fee Plato mandate funded in April 2021

^{4\$4.3}bn excluding \$3.9 billion one-off low fee Plato mandate funded in April 2021

- Seven Affiliates earned performance fees totalling \$86.2 million (at 100%; Pinnacle post-tax share \$19.5 million) in FY21 (in FY20, five Affiliates earned performance fees totaling \$26.7 million (at 100%; Pinnacle share \$6.6 million)), demonstrating the increasing growth and diversity of strategies with performance fee potential. Performance fees of virtually every strategy are also distinct from each other (performance fees are based on individual strategy alpha, not on market gains)
- Other highlights during FY21 include:
 - Metrics launched its Direct Income Fund, an unlisted trust available to retail investors, in July 2020
 - Solaris Australian Equity Income Fund made available to retail investors in August 2020
 - Longwave secured its maiden institutional mandate in September 2020
 - Aikya secured its maiden institutional mandate in October 2020
 - Hyperion secured its maiden internationally-sourced global equity mandate in October 2020
 - Res Cap won the Global REIT category at the Zenith Fund Awards for the seventh consecutive year in October 2020
 - Spheria's Global Microcap Fund received its inaugural research rating in October 2020
 - Hyperion Global Growth Companies Fund (Managed Fund) listed its units on the ASX (ASX: HYGG) in March 2021
 - Antipodes Global Equity Collective Investment Trust, for US-qualified plans, launched in April 2021 with its first client
 - Firetrail secured its maiden Australian Small Companies institutional mandate in April 2021
 - Plato secured the largest single mandate in its history at approximately \$3.9 billion (at low fee levels) in April 2021
 - Riparian secured its maiden institutional mandate, funding in May 2021
 - Coolabah listed its Active Composite Bond Fund on Chi-X (FIXD) in June 2021, bringing that strategy to retail investors for the first time
 - Palisade established a Real Assets subsidiary to consider global investment into infrastructure-like assets in June 2021

- Total Affiliate revenues¹ were \$415.5 million during FY21, including \$86.2 million (21%) in performance fees; in FY20, total Affiliate revenues were \$291.1 million, which included \$26.7 million (9%) in performance fees
- This represents 43% growth in total Affiliate revenue (25% excluding performance fees)

Number of strategies with the potential to deliver significant performance fees

- The volume of FUM with performance fee potential has increased significantly
- FUM subject to performance fees entering FY22 is 28% higher than the average during FY21
- The number and diversity of strategies with significant performance fee potential has increased in recent years (improving the annual reliability of overall performance fee revenue)
- Likelihood of performance fee success is not correlated to equity market levels – based on performance relative to individual hurdles¹
- Likelihood of performance fees is distinct between individual strategies – indeed, some possibility of inverse correlation – e.g., growth vs. value?

¹In ResCap and Hyperion Global a performance fee is payable only if a positive absolute return is generated. If not, any alpha accrued is carried forward to future periods. These are the only two strategies currently impacted by market movements.

- Significant revenue growth in Pinnacle Parent, costs controlled:
 - Revenues have grown 45% compared with FY20, driven by strong inflows and revenue-sharing fees
 - 'P&L investment' in support of Horizon 2 initiatives somewhat restrained during FY21; we deliberately stayed fully resourced throughout the COVID-19 period to support our Affiliates and existing initiatives, but did not consummate substantial new initiatives. In FY22 Horizon 2 investment is likely to increase, adding expense to Pinnacle Parent P&L
 - Pinnacle Parent revenues are generally stronger in the second-half, when certain 'success-based' distribution fees crystallize and become payable. The 'skew' in our results was less pronounced than usual in FY20 with the COVID-19 pandemic and resulting market dislocation having a major impact on our flows and revenues in the 2H FY20
 - Revenues in 1H FY21 were 26% higher than 1H FY20; revenues in 2H FY21 were 65% higher than in 2H FY20
 - Positive net return on PI of \$2.2 million in FY21; negative net return of \$0.5 million in FY201
 - Interest cost on the CBA facility (\$495k) and amortization of the costs associated with the PL8 top-up in FY21 (\$858k) included within 'other expenses' for FY21. These commenced part-way through FY20 and were \$408k and \$691k respectively in FY20. Revenues associated with the PL8 top-up (which 'offset' against the amortization) were \$909k² in FY21
 - Expenses are up \$3.9 million or 14% on FY20. Adjusting for realised and unrealised gains/losses on PI of a net \$0.1 million loss in FY21 and a net \$1.3 million loss in FY20, expenses increased by \$5.1 million, or 19% (note that these losses on PI include losses on hedging equity market exposures). The major factor in the increase in expenses was STI returning to 'normal' levels in FY21, having been significantly reduced in FY20

- Significant growth (\$28.4 million, or 75%) in Pinnacle's share of Affiliate profits compared with FY201:
 - Performance fees (at 100%) of \$86.2 million in FY21, across seven Affiliates (Pinnacle share post-tax of \$19.5 million); \$26.7 million (at 100%) in FY20 across five Affiliates (Pinnacle share post-tax of \$6.6 million)
 - Adjusting for Pinnacle's share of performance fees earned by Affiliates, share of NPAT from Pinnacle Affiliates of \$46.9 million (excluding Pinnacle's share of performance fees post-tax of \$19.5 million) is up 49% on the \$31.4 million share of NPAT from Pinnacle Affiliates in FY20 (excluding Pinnacle's share of performance fees post-tax of \$6.6 million)
 - Growth in underlying Affiliate revenues of 25% (at 100%) compared with FY20, excluding performance fees, and aggregate Affiliate profitability of 37% (at 100%) compared with FY20, excluding performance fees
 - Continuing investment in additional resourcing by certain Affiliates ahead of future growth (including Metrics, Firetrail, Coolabah, Resolution Capital, Plato and Antipodes)
 - Direct cost of Two Trees, Longwave, Riparian, Reminiscent and Aikya included as negative NPAT

- Cash and PI of \$155.0 million
 - Includes \$56.4m invested in strategies managed by Pinnacle Affiliates
 - Excludes \$9.6m of cash applied for Affiliate equity recycling loans, working capital loans and additional Affiliate equity purchased
 - CBA facility expanded to \$100.0 million, fully drawn on 30 June 2021. Invested into liquid funds managed by Affiliates on 1 July 2021
- Excludes impact of final dividend of 17.0 cents per share payable on 17 September 2021 and dividends (including dividends derived from performance fees) received or to be received from Affiliates since 30th June
- Franking credit balance (\$29.1m) at 30% company tax rate would enable potential fully franked dividends of \$67.9m
- Investments in Affiliates represents the 'equity accounted' value, i.e., investment cost, plus Pinnacle's share of profits, less Pinnacle's share of dividends received. The balance is tested for impairment at each reporting period. Pinnacle's share of Affiliate performance fees that crystallized during FY21 (\$19.5m, post-tax; \$8.5m post-tax in 2H FY21) are included in Pinnacle's share of profits and increase the carrying value of the investments; any associated dividends will reduce the carrying value when paid

FUNDS UNDER MANAGEMENT

Gross FUM (\$bn)¹

- FUM of \$89.4bn as at 30 June 2021²
- FUM has grown at a CAGR of 24.1% p.a. over the last ten years (22.6% excluding \$6.8bn 'acquired' in July 2018 and 3.0 billion 'acquired' in December 2019)
- Increase in FUM of \$18.9bn in 2H FY21
 - Net inflows of \$11.2bn³
 - Increases due to market movements/investment performance of \$7.7bn
- Of the \$11.2bn³ of net inflows in 2H FY21, \$2.6bn was retail, of which \$0.2bn was in LICs/LITs
- Retail flows averaging over \$400m per month in 2H FY21
- Institutional pipeline remains strong and diversified – onshore and offshore

¹Pinnacle FUM is 100% of FUM managed by Pinnacle Affiliates. Includes \$6.8 billion 'acquired' in July 2018 and \$3.0 billion 'acquired' in December 2019 ²\$85.5bn excluding \$3.9 billion one-off low fee Plato mandate funded in April 2021

GROWTH & RESILIENCE

Growth & Resilience

- Clear evidence of strategy execution success
 - Growth and Resilience simultaneously delivered
- Our status as a high growth company remains intact
 - Fully recovered from challenges of FY20
 - We plan to maintain our strategy, aimed at delivering high growth
 - Carefully, from multiple sources
- An excellent platform in place to move ahead with sustained growth
 - From a proven business model and philosophy
 - Sufficiently adaptable for both organic and inorganic growth from a significantly enhanced base
 - Both domestic and offshore

- For several years, we have been consistently implementing our strategy:
 - A 'pure play' investment management firm comprising only the best investment professionals, focused on investment excellence
 - Highly-regarded distribution teams, the best in the Australian retail and institutional markets
 - High-quality shared common infrastructure
 - Multiple Ways of Winning, irrespective of market conditions (both at the Affiliate level and the Pinnacle level)
- Three Horizons of Growth
- Adding new assets classes and investment strategies, diversifying sources of revenue and further growth
- Over the past few years, including the COVID-19 crisis, this strategy has delivered:
 - Horizon 1 NPAT has grown at a CAGR of 63% in the five years since Pinnacle listed as a 'pure play' investment management business in 2016 to 30 June 2021; FUM has grown at a CAGR of 35% over that same period (32% excluding 'acquired' FUM)
 - Horizon 2 Built 'from scratch' Hyperion, Plato, Solaris, Palisade, Antipodes, Spheria, Firetrail...
 - Horizon 3 Acquired interests in, then grew: ResCap, Metrics, Coolabah

- Continue to build Pinnacle by taking a measured approach to growth
 - Support the growth of our current Affiliates with increased investment in distribution channels (e.g., international and listed markets)
 - Invest in / seed new Affiliates where management teams have a strong track record and growth potential
 - Seeking to diversify into asset classes with substantial growth potential:
 - Sustainability and Impact strategies
 - Global equities (developed & emerging markets)
 - Private capital (debt & equity)
 - Absolute return (single & multi-asset)
 - Alternative fixed income
- M&A will follow a rigorous evaluation process
- Offshore opportunities are becoming compelling ability to 'export our model' – delayed somewhat to date by COVID-19

Horizon 1 Sustain organic growth of the existing business of each affiliated IM

Any costs internally funded by the Affiliate

Horizon 2

- New affiliated boutiques and 'non-capital' parent growth initiatives (directto-retail, offshore)
- Reasonable limits to be set given 'drag' on Pinnacle financials

Impacts 'Pinnacle parent loss

Horizon 3

- Must not place the company at risk
- Only consider if low risk and high return on invested capital
- Exercise great car and careful due diligence
- Must be synergistic with existing core

Requires capital to fund acquisitions

- Criteria
 - Must not place the Company at risk
 - Only consider if low risk and high return on capital over the medium term
 - Exercise great care and careful due diligence
 - Must be synergistic/consistent with existing core
- Status
 - Res Cap acquisition in 2007
 - Metrics acquisition in July 2018
 - CCI acquisition in December 2019
 - We will continue to explore opportunities such as:
 - Existing profitable investment management firms that we could help
 - Distribution/retail/fund infrastructure businesses that may be synergistic
- Platform is strong and sufficiently adaptable to consider meaningful organic and inorganic growth, both domestic and offshore
- Offshore opportunities are becoming compelling ability to 'export our model'

- Investment in (and continuing to evolve and grow in size and sophistication) our distribution platform
 - Grow ahead of our Affiliates
 - Listen to clients and move quickly to meet their evolving needs
 - Do not become the market be ahead of it
- Investment in new Affiliates adds diversification and further growth
 - Sustainability and Impact strategies
 - Alternative fixed income
 - Global equities (developed & emerging markets)
 - Alternative Fixed income
 - Private capital (debt & equity)
 - Absolute return (single & multi-asset)
- Stable/robust, diversified <u>platform</u> enabling strong further growth
 - Continuing investment excellence (strong reputation for such)
 - Widespread industry recognition and support
 - · 'Article of faith' reputation for performance, quality and capability excellence
- Offshore provides a large range of Horizon 2 and Horizon 3 opportunities, carefully 'exporting our model'
- Further investment in distribution capability
 - Retail
 - International
- Proven ability to quickly build high quality investment managers and facilitate substantial success for them
- Existing Affiliates are increasingly able to build or buy (with Pinnacle backing) then grow additional new businesses 'Affiliates within Affiliates'
- Expanding distribution and infrastructure capability, all of high quality
- Critical to maintain highest standards of service and support to Pinnacle Affiliates
- Strong and flexible balance sheet

Result: additional growth, corporate stability/robustness, better meeting clients' evolving and expanding needs

Growth of our Platform

CONTINUING TO INVEST IN A DIVERSIFIED PLATFORM TO STRENGTHEN FUTURE GROWTH

- Executives of both Pinnacle and Pinnacle Affiliates have significant equity interests
- Equity ownership enhances alignment with shareholders

- Maiden allocation secured with Australian institution in October 2020
- International allocations received from November 2020
- Portfolio Managers previously responsible for stewardship of US\$9bn+ in Emerging Market and Asian equities, on behalf of clients of Stewart Investors and Fidelity respectively
- Substantial global interest in sustainable Emerging Market equity strategies

- Founded in October 2018
- Achieved major investment consultant ratings
- Won allocation from world's largest OCIO provider in September 2020
- Founder launched and managed the Schroders Australian small and microcap equity funds

- Founded in 2008
- Created and managed one of the world's first ESG Global Bond strategies
- Omega, Plato and Pinnacle have agreed that Omega will integrate into Plato, as Plato continues to build-out a multi-strategy 'quant powerhouse'
- Teams will collaborate on a centralised research platform
- Omega has been notified that an institutional client for whom it manages ~\$4bn of 'passive' FUM at low single digit basis point fees is transitioning their 'indexed' subadvisory business to a single manager globally

- Founded in 2019
- Exceptional performance during the COVID-19 drawdown
- Strategy available in Cayman and Australian vehicles
- First Australian institutional investor due to fund in August 2021

- Founded in early 2019
- Achieved strong rating from one of the world's largest alternative investment consultants
- Marquee international investor fund commitment secured in May 2021
- Gaining traction with offshore investors for agriculture segregated accounts
- Riparian Water Fund produced attractive, uncorrelated net returns in FY21

- Founded in May 2017
- Ex-GMO SGM team
- Secured early FUM
- Significant loss of FUM during the COVID-19 induced market dislocation, as investors sought liquidity
- High-quality team with a long track record of success

Resilience enhanced by progressive diversification of:

- 1. Asset classes (including a greater range on offer overseas)
- 2. Client type
- 3. Client domicile (overseas as well as domestic)
- 4. Percentage of funds exposed to performance fees

International

Retail – Intermediated

Retail – Direct

Retail

- 230+ individual institutional clients (some with whom we have multiple relationships) at 30 June 2021, compared with ~60 at 30 June 2016
- Growth in Retail as a proportion of total FUM (at 100%) and as a proportion of total revenues (at 100%)
- Increasingly diversified client base

- Pinnacle has invested significantly in retail distribution and has generated substantial retail FUM in the last 8 years (~\$20bn of retail FUM growth)
- Initiatives include growth of internal and external sales teams, LIC/LITs and exchange traded funds (open & closed ended)
- Significant increase in absolute retail FUM over FY21, with net inflow rate averaging close to \$400m per month over the FY. Slight decrease in relative proportion given the extremely large institutional flows over the FY

Affiliates' FUM (at 100%) subject to performance fees

- Significant growth in both absolute and percentage of FUM subject to performance fees
- Diversification across asset classes
- Performance fees add diversity to revenue sources, being uncorrelated with market movements and each Affiliate's performance being uncorrelated with the others' and with other revenue²
- FUM subject to performance fees entering FY22 is 28% higher than the average during FY21

¹\$85.5bn excluding \$3.9 billion one-off low fee Plato mandate funded in April 2021. ²In ResCap and Hyperion Global a performance fee is payable only if a positive absolute return is generated. If not, any alpha accrued is carried forward to future periods. These are the only two strategies currently impacted by market movements.

INSTITUTIONAL & INTERNATIONAL MARKETS

3 Key themes driving search activity

- 'Pursuit of scale benefits'
 - Australian regulatory-driven market consolidation
 - Global growth of fiduciary outsourcing / OCIO
- 'Reopening, reflation and style-rotation'
 - Building defence by unconventional means
 - The great value-rotation?
- · 'Institutional herding on green pastures'
 - Decarbonisation
 - ESG

Fundamentals in place for sustained sales growth

- Highly regarded Affiliates with strong local and international investment consultant ratings
- Diverse stable of Affiliates (asset class, style, strategy, maturity) ensures 'all-weather' relevance to asset owners
- Private and public credit expected to sustain current growth trajectory
- Global equities and global emerging markets expected to emerge as bigger drivers of FUM growth
- Australian equities and global real estate securities growth expected to moderate given active capacity management

· Australian institutional consolidation will continue to present ongoing risk ... and opportunity

- Incumbency provides Pinnacle Affiliates a seat at the table in portfolio rationalizations
- · 'Supported' start-ups offer the capacity, fees, alpha potential and financial viability that large, growing investors need
- Retail and international distribution platforms enable us to 'recycle liberated capacity' from Australian institutions into a more diverse and higher margin client base

International distribution emerging as an 'engine of growth'

- Over a decade organically building global investor networks, strategies and infrastructure
- International distribution making a material contribution to net flows
- Fiduciary outsourcing, virtual due diligence and northern hemisphere distribution/investment hubs bridging distance between Australian based Pinnacle Affiliates and the world's largest pools of capital
- Incremental expansion of offshore distribution hubs planned in FY22

RETAIL MARKET

Record retail flows achieved on the back of strong investment performance, adaptation to the environment leading to a significant lift in sales activity levels and continued focus on high performance operating model

1. Secular trends impacting intermediated advice channel have accelerated under COVID-19 conditions:

- Adviser exodus during FY21 continued with 11% decline (vs 15% decline in FY20)¹
- Regulatory reforms and increased compliance affecting productivity and profitability
- Rise in corporate activity and industry fragmentation both across advice and service providers
- Switching from 'retail/personal advice' to 'wholesale' licensing
- Greater scrutiny of 'value' has seen increase in low-cost passive and highly-rated strong performing active managers

2. Transformation of products and services to meet the changing needs of investors

- Rise of managed accounts, SMAs and quoted unit products (dual structure)
- Opportunity for highly-rated boutiques to participate (scale) with better margins than institutional market
- Strong results for Pinnacle Affiliates participating in discrete Managed Accounts/SMAs with \$293m net new flows during FY21 and total FUM of \$826m as at 30 June 2021
- Continued strong flows in ETPs has resulted in innovative dual structure (unlisted and listed) products coming to market with Pinnacle Affiliates scheduled for new launches in FY22
- Enhanced consumer-centric approach to the design and distribution of solutions to ensure we deliver best practice product governance

3. Transition from 'analogue' to 'digital' distribution practices

- Highly competitive environment for share of voice with increasingly time-poor advisers/investors
- Optimised engagement through best practice thought-leadership and consultative practices
- Shift from long-term campaign planning to co-ordinated, topical, nimble go-to-market content dissemination
- Multi-channel content amplification: virtual events, digital round tables, webinars, podcasts, Q&A videos, social, eDMs
- Market-leading MarTech Stack: client engagement, high value lead generation and revenue growth through optimised marketing automation tools

4. 'Business Intelligence'

- Utilising data insights and analytics to lift productivity and deliver superior, personalised experiences, growth and measurable ROI
- Enhanced and expanded our existing adviser CRM by an additional 5K+ dataset to continue to lift our sales across the segment (>17K advisers are currently on CRM)
- Focusing on talent growth and acquisition in line with digital distribution practices and consistent with high performance culture

- \$3.5 billion¹ of listed FUM as at 30 June 2021 across 8 active ETFs, LICs and LITs
 - ETFs reached a tipping point in March 2020 as ETF adoption had a step change (as seen in monthly ETF value traded)
 - Active global equities and fixed income dominate active ETF flows
 - Pinnacle embraces new dual/quoted unit structure as a potential active ETF 'game changer'
 - HYGG and FIXD both play to these themes
 - LIC sector consolidates through M&A and conversions to open ended funds (as shown by a reduction in the number of ASX listed LICs and LITs)
 - MXT successfully raises \$192 million in April 2021, one of the first LIC/LITs to re-open the capital raising by LICs/LITs after a hiatus in 2020

¹⁻ Does not Include the total fund size of the Hyperion Global Growth Companies Fund (Managed Fund) (ASX: HYGG) listed on 22 March 2021 or any affiliate (such as Coolabah) assets raised with third party 'Exchange Traded Products' (ETPs) such as BetaShares Active Australian Hybrids Fund (ASX: HBRD) or The Switzer Higher Yield Fund (Chi-X: SHYF). Otherwise, there are 10 ETPs (in aggregate) including third party solutions with total funds under management across Affiliates of \$6.0 billion as at 30 June 2021.

PERFORMANCE FEES

- Potential aggregate performance fees are both sizeable and repeatable each year
- Deliberate strategy to seek performance fee structures as an alternative to higher base fees they are direct substitutes and a means of maximising average annual revenue, particularly in capacity-constrained strategies and/or strategies in extremely high demand, and further align client outcomes with performance
- A healthy mixture of 'base only' fees and 'lower base plus performance' fees yields optimal overall business outcomes ample consistent base fee revenues, but maximising average annual revenue by a diversified range of substantial performance fees. We are delighted with the 'mix' we have achieved
- Whilst recognizing it may be difficult to estimate, we believe that a substantial quantum of performance fees should be included in revenue forecasts to reflect realistic expected outcomes

Date	30 June 2016	30 June 2018	30 June 2021
FUM (\$bn)	\$3.3bn	\$10.3bn	\$28.7bn
Significant strategies	5	8	18

Large and increasing performance fee FUM and strategy diversity

- 2H v 1H the **potential** and **reliability** of performance fees are, logically, greater in 2H than 1H
 - 7 out of 18 strategies that currently have potential to deliver significant performance fees crystallise only in in 2H
 - Thus, 11 of 18 strategies have the potential to deliver significant performance fees in 1H but all 18 have such potential in 2H (of course, the range of possible outcomes remains large each half, and it is by no means guaranteed that in any particular year 2H will exceed 1H)
 - Palisade, ResCap, Metrics, and Solaris have annual fees that crystallise on 30 June
 - 2H includes some in 'higher reliability' category (Palisade, Metrics) in current environment
- Size three main factors:
 - The size/volume of FUM with performance fee potential (currently 18 strategies have sufficient FUM to potentially deliver meaningful fees). See slide 12
 - The size of alpha (outperformance v benchmark)
 - The extent to which a strategy is currently at or below the 'high water mark'
- Diversity
 - Variety of strategies with performance fee potential is now large (and will continue to grow)
 - Performance fees of virtually every strategy uncorrelated with every other strategy (independent alpha sources)
 - Performance fees are based on individual strategy alpha, not on market gains or market level¹
 - This increases the likelihood of Pinnacle as a whole achieving substantial performance fees each and every year
- FUM subject to performance fees expected to grow
 - Hyperion Global, ResCap retail experiencing strong growth¹
 - Affiliate growth Aikya, Longwave and Reminiscent
 - · New Strategies Firetrail, Spheria Global, Solaris Australian Equity Income
 - Large Capacity Antipodes, both credit Affiliates (Metrics, Coolabah) each have very large additional capacity
 - Regain 'high water mark' Antipodes and Firetrail High Conviction large FUM, currently below 'high water mark'

¹In ResCap and Hyperion Global a performance fee is payable only if a positive absolute return is generated. If not, any alpha accrued is carried forward to future periods. These are the only two currently impacted by market movements.

CORPORATE SUSTAINABILITY

Pinnacle as a Responsible Firm

We are focused on continuous improvement, striving to do better by building a long-term, sustainable firm that focuses on our people, customers and shareholders as well as the communities in which we engage

Sustainability Strategy

- Established a Sustainability Committee
 - The Committee provides coordination and guidance on the integration of sustainable strategies and practises into the broader business
- Established a specific ESG Risk Management Framework (RMF)
 - The ESG RMF identifies and defines Pinnacle's ESG risks and guides corporate planning and decision making to ensure that Pinnacle operates within the ESG risk appetite set by the Pinnacle Board
- Aligned ESG initiatives with the United Nation's Sustainable Development Goals (SDGs)
- Enhanced ESG transparency through the release of Pinnacle's inaugural Corporate Sustainability Report, with climate-related disclosures aligned with Task Force on Climate-Related Financial Disclosures (TCFD) recommendations

Carbon Management

- Pinnacle has achieved carbon neutrality since FY19. In FY21, Pinnacle's FY20 carbon inventory was certified Climate Active Carbon Neutral. Pinnacle will continue to have its carbon inventory assessed for accuracy each year against the Climate Active Carbon Neutral Standard (for organisations).
- Continuing to pursue virtual interactions wherever feasible, in order to minimise all unnecessary travel, with a target to reduce airtravel emissions per revenue in financial year 2022 and beyond
- Pinnacle's largest office space operates on 100% green energy

Responsible Partnerships

- Continuing to support Affiliates to innovate and adopt best practice carbon management and ESG integration
- Pinnacle's Outsourcing Policy has been updated to specifically identify and address modern slavery risks
- Pinnacle will partner only with software and hardware providers that have a clear climate reduction strategy that aligns with the Company

Pinnacle recognises the need for strategies that foster economic development, reduce inequities and transition towards a more sustainable future. By aligning our sustainable initiatives with the UN SDGs and through the support of the Pinnacle Charitable Foundation, we can begin to turn global challenges into opportunities.

Diversity

- Pinnacle is committed to strengthening business innovation and decision-making through workplace diversity. Pinnacle recognises the benefits of a diverse group of employees reflecting different backgrounds, attributes, perspectives, styles, knowledge, experience and abilities.
- In FY21, Pinnacle implemented a Pinnacle-wide KPI to address inclusivity at all business levels
- To support the achievement of these diversity objectives, Pinnacle has undertaken the following initiatives:
 - Equal opportunity recruitment process that draws a diverse pool of both applicants and shortlisted candidates for all positions
 - Flexible work arrangements to assist employees to balance their work, personal and family responsibilities
 - Continuing to encourage women into finance by:
 - Sponsoring Women in Finance scholarships to assist female university students in gaining a greater understanding of and experience in investment management. This year, Pinnacle increased scholarships from eight to fourteen. Six former scholars are currently employed within the broader Pinnacle group
 - Continuing as a founding Sponsor of the University of Queensland Women's Network and extending this focus to include the Macquarie University Women's Network
 - Applying the principle of equality when:
 - setting salaries, and considering the short-term and long-term incentives of all employees
 - considering internal promotions and succession planning
 - Facilitating a strong return to work and retention rate of employees on parental leave
 - Comprehensive employee behaviour and grievance resolution policy
- As at 30 June 2021 Pinnacle had a total of 33% females across all positions

People

- Fully supportive of initiatives to optimise the mental health of employees through access to the Employee Assistance Program for employees and family members
- Committed to instilling a culture that values rest and family time. We have embraced flexible working across the business to assist employees to balance their work, personal and family responsibilities
- Pinnacle has a strong focus on the development of its staff and facilitates practical development initiatives such as secondments, on the job rotational assignments and on demand learning programs.
- Employees are encouraged to always act in Pinnacle's best interests and maintain a line of sight to long term goals. To help enable this, as at 30 June 2021, approximately 29% of employees had an individual shareholding in the Company

Community

• The Pinnacle Charitable Foundation and engaged Affiliates supported key not-for-profit partners to address a number of social priorities by donating in excess of \$770k during FY21. See slides 68-69 for further details

- Pinnacle is passionate about enabling better lives through investment excellence. This belief is strongly reflected in Pinnacle's commitment together with Affiliates to the Pinnacle Charitable Foundation
- The Foundation's focus is on growing the sustainability of creative and clever Australian not-for-profit organisations.

 Partners are actively sought out and invited to apply for annual support based around exploring new projects, programs, and services. In each case the aim is to facilitate the delivery of solutions which can be analysed and assessed, scaled, and strengthened, with early stage backing often provided
- Financially underpinned by Pinnacle and with access to extensive in-house pro bono services across investment
 management, portfolio reporting, finance, marketing and IT, the Foundation operates with low overheads and high impact.
 Its investment strategy aims to provide capital protection in volatile markets whilst seeking to drive growth over the longer
 term, and has proven to be highly effective in protecting the corpus during the unpredictable environment of FY21.
 Investments are held in a range of Affiliate strategies which offer Australian and global equity exposure, franking credits,
 monthly income streams, plus a range of non-equity exposed assets
- Total donations by the Foundation in FY21 were \$541,000 (an increase of 41% from FY20), with Affiliates providing a further \$230,000 via direct support to several jointly funded charity partners (an increase of 70% from FY20)
- These funds of circa \$770,000 were predominantly directed to 9 not-for-profit partners across five identified priority areas, plus in support of emergency flood relief in April 2021
- In addition, a matched employee workplace giving program offered by Pinnacle and several Affiliates in FY21 resulted in further donations of over \$106,000 to 50 charities

Pinnacle Charitable Foundation

- Key focus areas and partners for FY21 were as follows:
 - Promotion of strong mental wellbeing, together with support for prevention and early intervention strategies aimed at reducing mental illness and driving down suicide rates. Long-term partnerships are in place with R U OK?, ReachOut Australia and batyr Australia
 - Support for children and young people from a range of environments who face acute and / or systemic disadvantage, with partnerships in place with the Mirabel Foundation and Yalari
 - Legal assistance and strong advocacy for victims of sexual abuse and domestic violence, through a multi-faceted relationship with the Full Stop Foundation
 - Capacity building for world-leading medical researchers seeking treatments and cures for children's genetic diseases and for dementia sufferers, through partnering with CMRI (Children's Medical Research Institute) and the Australian Alzheimer's Research Foundation (AARF)
 - Building awareness amongst children in a COVID-19 world of the critical need for kindness, empathy, community and resilience through a partnership with the Kindness Factory

"The reputations and future success or otherwise of investment management companies are often determined by their behaviour and performance during periods of crisis and their capacity to resume growth depends on the strength of the capabilities with which they emerge from such crises."

[PNI – previous presentations]

- 'Business as usual' have embraced a fully-flexible working model
- Continuing close attention paid to the health and well-being of our people. Ensuring extensive contact particularly within teams, very regular 'catch-ups'/communications using appropriate technology
- Increasing interactions with clients and their advisors
- Our approach: work very hard, return to strong growth and continue to strengthen our core capabilities to ensure that we are ready to take advantage of opportunities that may materialise, and to react to any possible further external adversity

Australian and Global Credit (Long Only and Long/Short)

- Australia's most active credit investor with over \$25 billion of trades in 2020
- Australia's largest long/short active credit manager CCI believes it has the biggest team in investment-grade fixed-income with 27 execs, including 14 analysts and 5 portfolio managers with a total of 4 PhDs
- CCI minimizes client exposures to fixed-income betas: interest rate duration, credit default risk and illiquidity risk
- Applying 30-40 internally developed quant models, CCI seeks to acquire cheap, mispriced bonds paying excess credit spread for their risk factors
- As credit spreads normalise/mean revert towards CCI's fair value targets, clients capture capital gains on top of interest income
- These capital gains are driven by credit alpha, not beta
- Capital gains become increasingly important in a low-yielding world. That is, credit alpha is crucial in a world where interest rates are declining
- CCI has an outstanding macro forecasting track-record
- · Headquartered in Sydney, Australia, with offices in London, UK, and Melbourne, Australia
